This tree has been drawn using data from a number of websites, but I would like to acknowledge the work of Pat Calton and her contributors to “The Hibdon Legacy” (http://freepages.genealogy.rootsweb.ancestry.com/~pattiejo/hibdon/hibdon1/)

A Special Note about this Tree

This is the largest Chart in our collection (so far!) Printed out, it would be 66 feet long!

To make the chart more manageable, it has been split into 5 sections, each of which is on a separate page within this file. Click on the page arrows (example illustrated below left) on the task bar (above) to open each section of the tree from left to right in a new window.

Using the Taskbar at the top of the window, the zoom buttons (shown above right) can be used to enlarge or reduce the image, or the Marquee zoom selectoin tool can be used to enlarge a selected area. Typing a Personal Reference Number into the FIND box (non-working example illustrated above) and selecting “Find next in current pdf” from the drop-down menu, will search all parts of the tree and display the result.
