About the surname spellings on this tree chart:

The surnames on this sheet vary from Hebton, Hebden, Hebdon and Hepton though phonetically they all sound as "Hebden". The names used on the chart are those spellings used in the transcripts of the registers of All Saints Church, Bubwith, but for all practical purposes the spelling "Hepton" can be used throughout this chart. The index to this sheet is consistent and lists "Hepton" throughout. The forename of "Leonard" is found in the Sawley families and it may be that this branch is an offshoot of the Ripon and Sawley branch (See Sheet 7). It seems that the family line and descendants bearing the name of Hepton in Bubwith have now died out.
